

Application No. 10/709,646
Technology Center 3711
Amendment dated February 28, 2006
Reply to Office Action of November 28, 2005

Amendments to the Specification:

⁰⁰¹⁰
Please replace paragraph [0009] with the following amended paragraph:¹

ycc
11/2/06

⁰⁰¹⁰
[0009] Figure 1 is a side view ~~fragmentary view~~ of a golf club with a
ring positioned on the grip of the club shaft in accordance with a
preferred embodiment of this invention.

ycc
11/2/06

^{0012.1}
Please add the following new paragraph [0011.4] after paragraph [0011]:

ycc
11/2/06

^{0012.1}
[0011.4] Figures 4 and 5 are two views showing a hand grasping
the grip of the golf club of Figure 1.

ycc
11/2/06

⁰⁰¹⁴
Please replace paragraph [0013] with the following amended paragraph:

ycc
11/2/06

⁰⁰¹⁴
[0013] In order to place the ring 20 on the club 10, the ring 20 is
formed to have a slot 28 with a width sufficient to allow the shaft 18 of
the club 10 to pass therethrough. The slot 28 is preferably closable

with a suitable closure 30, represented in phantom in Figure 2.

~~Figures 2 and 3.~~ The closure 30 can be held in a closed position by a variety of fastener devices, such as a hinge, slide, spring, etc.

Alternatively, the closure 30 can be omitted so that slot 28 remains open, resulting in the ring 20 having a C-shaped configuration. The ring 20 is shown as having a particular shape in the Figures, though other shapes are possible. As such, the term "ring" is defined herein as a body shaped to have an inner perimeter, and does not limit the ring 20 to have a rounded cross-sectional shape.
